Section 2: Supply Chain Vetting & Risk Audit Checklist

Before committing deposits or signing sales contracts, perform these compliance audit checks:

- Unified Social Credit Code Verification:** Ensure the supplier provides their 18-digit Unified Social Credit Code. Verify it directly inside the National Enterprise Credit Information Publicity System (NECIPS).
- Company Name Consistency:** Ensure the contract seal matches the official Chinese legal name, not their English trading name.
- Exhibition History Matching:** Stable exhibitors (attending 5+ sessions) have a physical footprint and are highly unlikely to be temporary scams.
- Registered Capital Check:** Ensure the registered capital aligns with their manufacturing capacity. Low capital (e.g., <500,000 RMB) usually indicates a small trader.
