VETTED DIRECTORY SAMPLE

Top 100 stable firms

EXECUTIVE SUMMARY & VETTING STANDARDS

1. Supply Chain Demographics

Manufacturing of bags & luggage in China is highly cluster-driven. Key regional sourcing hubs represent the vast majority of verified exporters. Sourcing directly from these hubs guarantees access to competitive supply networks and mature port logistics.

2. Exhibition-Based Stability Metrics

Exhibition frequency is the single most reliable trust anchor for Chinese manufacturers. Suppliers that maintain booths for multiple sessions demonstrate verified physical footprints, active staff, and robust financial stability. This database lists the top stable manufacturers sorted by historic attendance stability.

3. The gocnscout Supplier Audit Framework

Use the following 4-pillar audit framework to vet any supplier prior to payment:

Pillar 1: Legal USCC Check

Check the 18-digit Unified Social Credit Code on National Enterprise Credit publicity databases to verify status.

Pillar 2: Capital & Scale Verify

Verify registered capital. Genuine factories typically register over ¥3,000,000 RMB to back operational assets.

Pillar 3: Footprint Audit

Compare the legal Chinese registered name to contract seals and bank account details. Never pay trading agents.

Pillar 4: Domain & Contact Lock

Verify that the official corporate email domain matches their verified website, preventing intercept phishing scams.
